Papas e Mamas,

Este livro é influenciado pelos estudos descritos por Sigmund Freud, sobre o método conhecido como a “regra fundamental”.

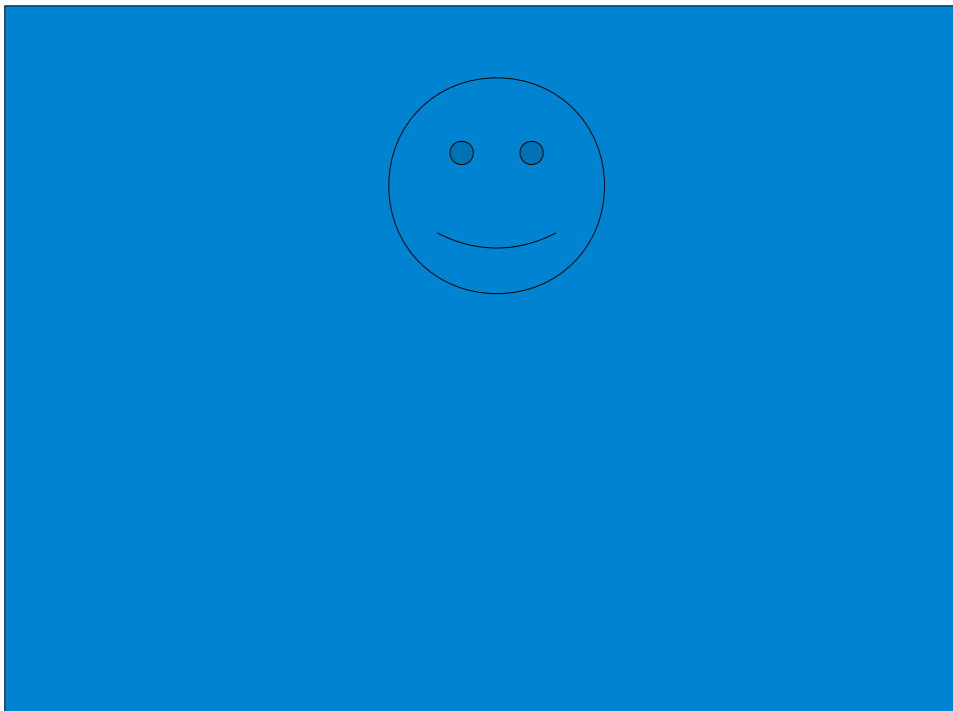

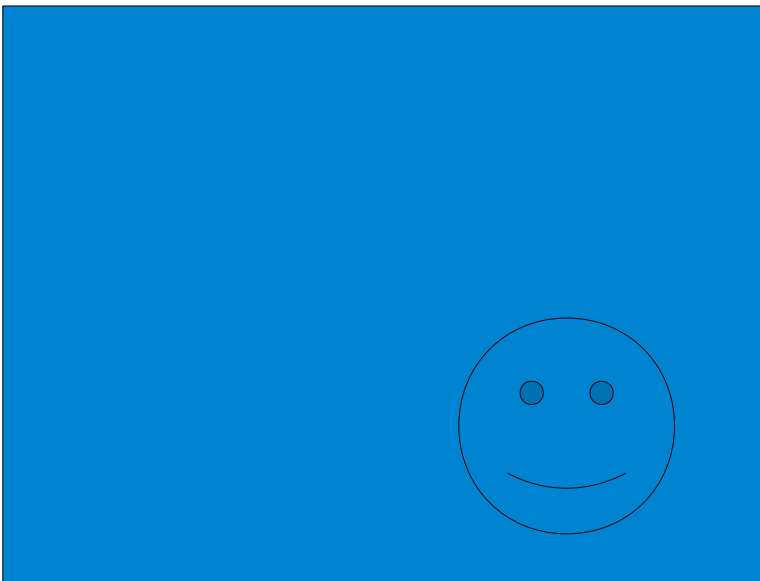

Basicamente, tentamos de forma simples, induzir a associação de imagens pelo leitor.

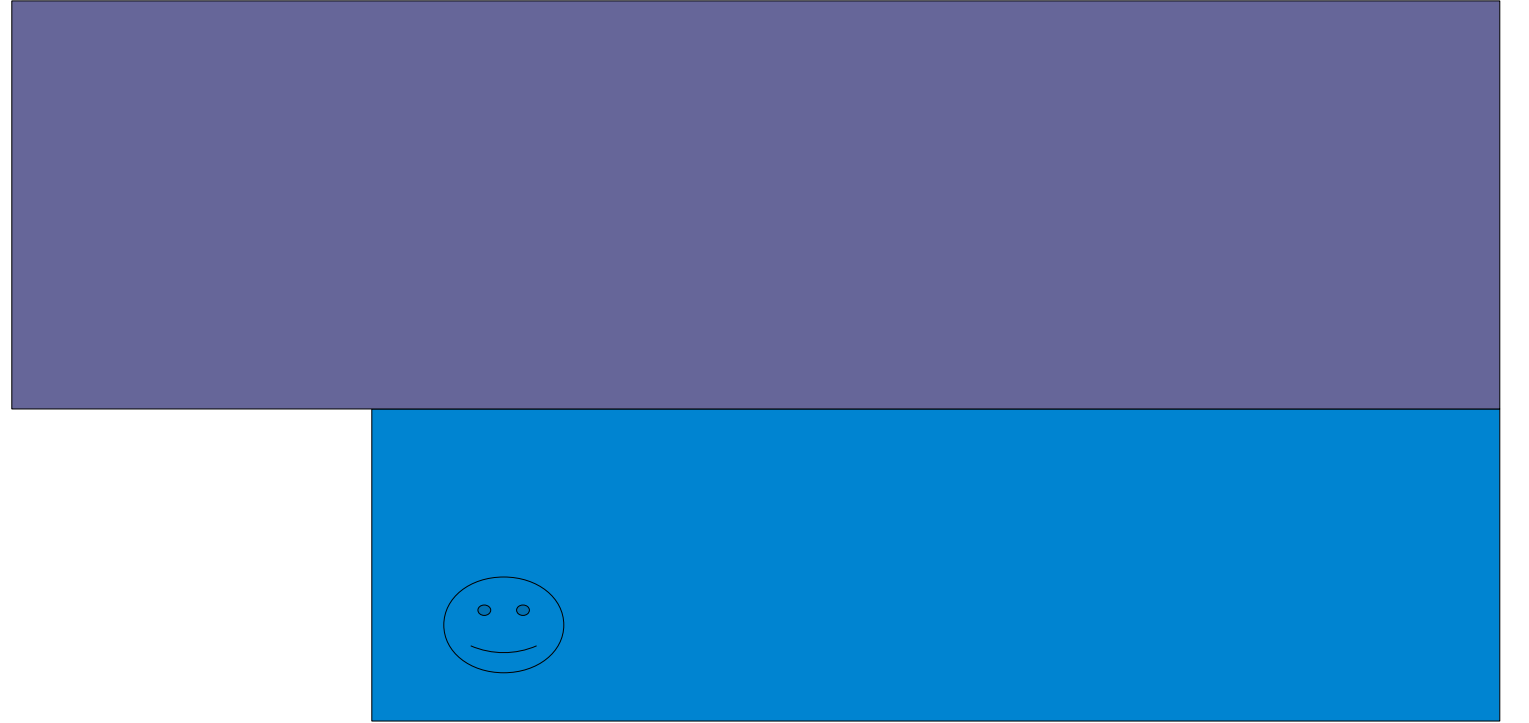

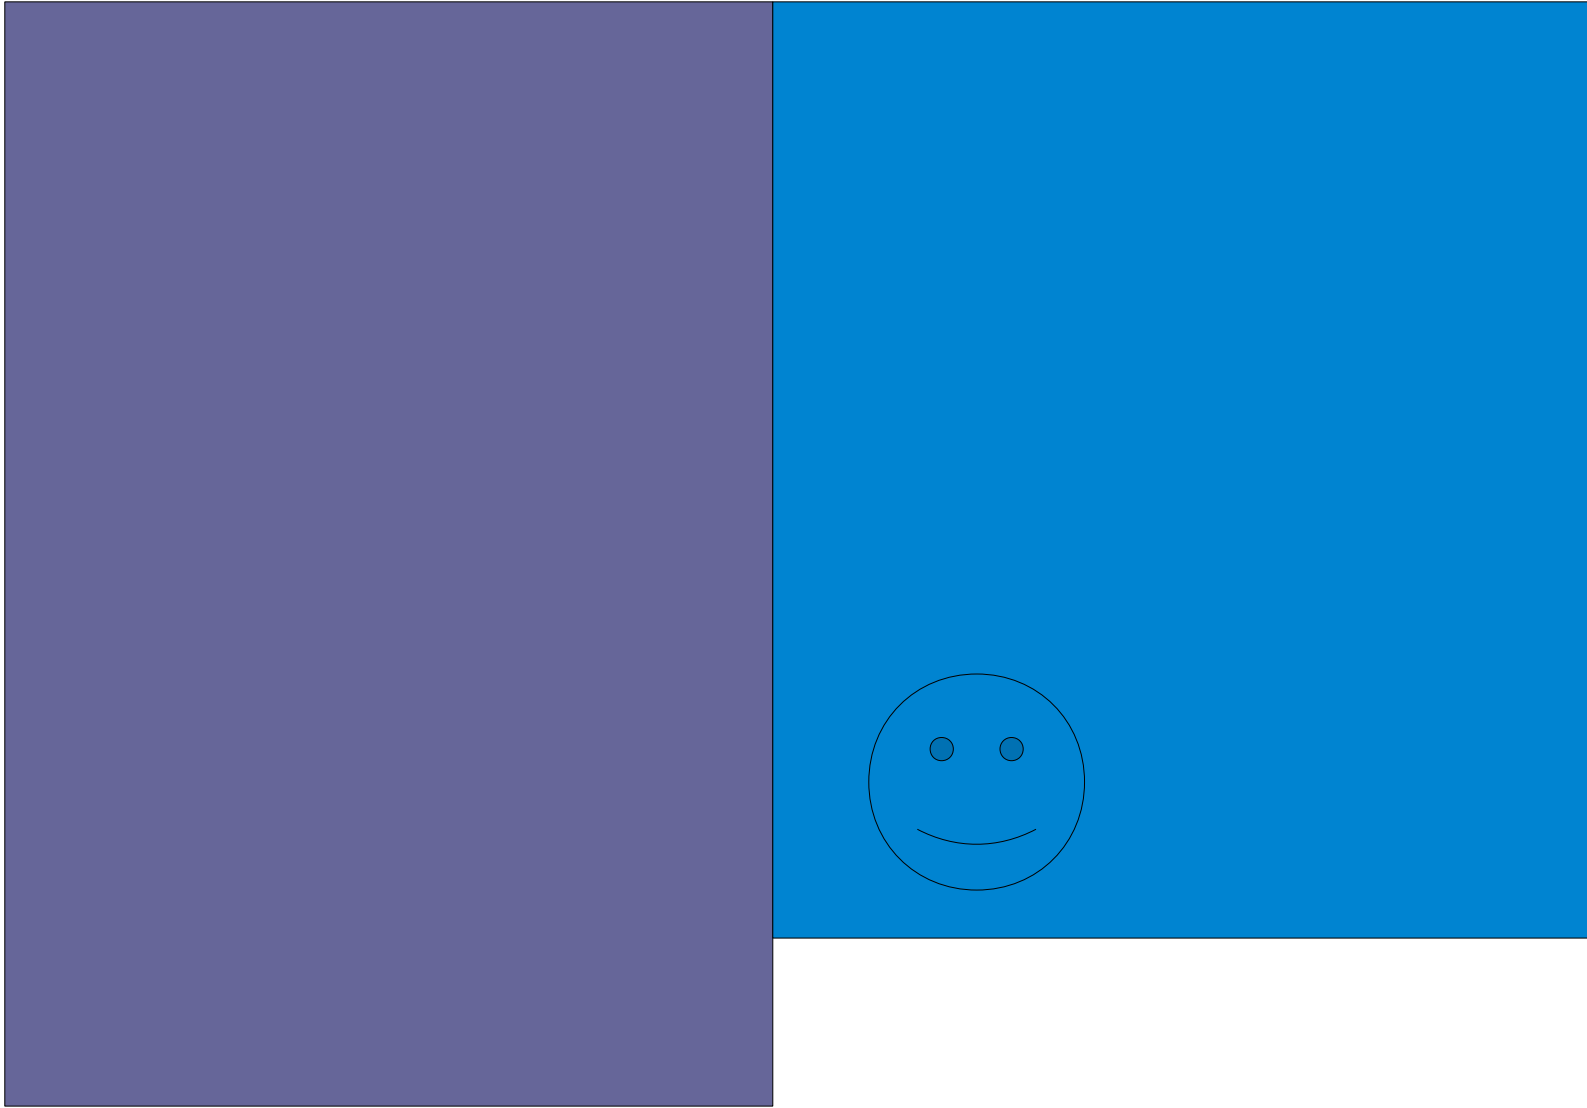

Os papais ficam do lado esquerdo, e apontam uma imagem narrando, enquanto os bebes ficam do lado direito apenas observando e apontando a imagem correspondente..

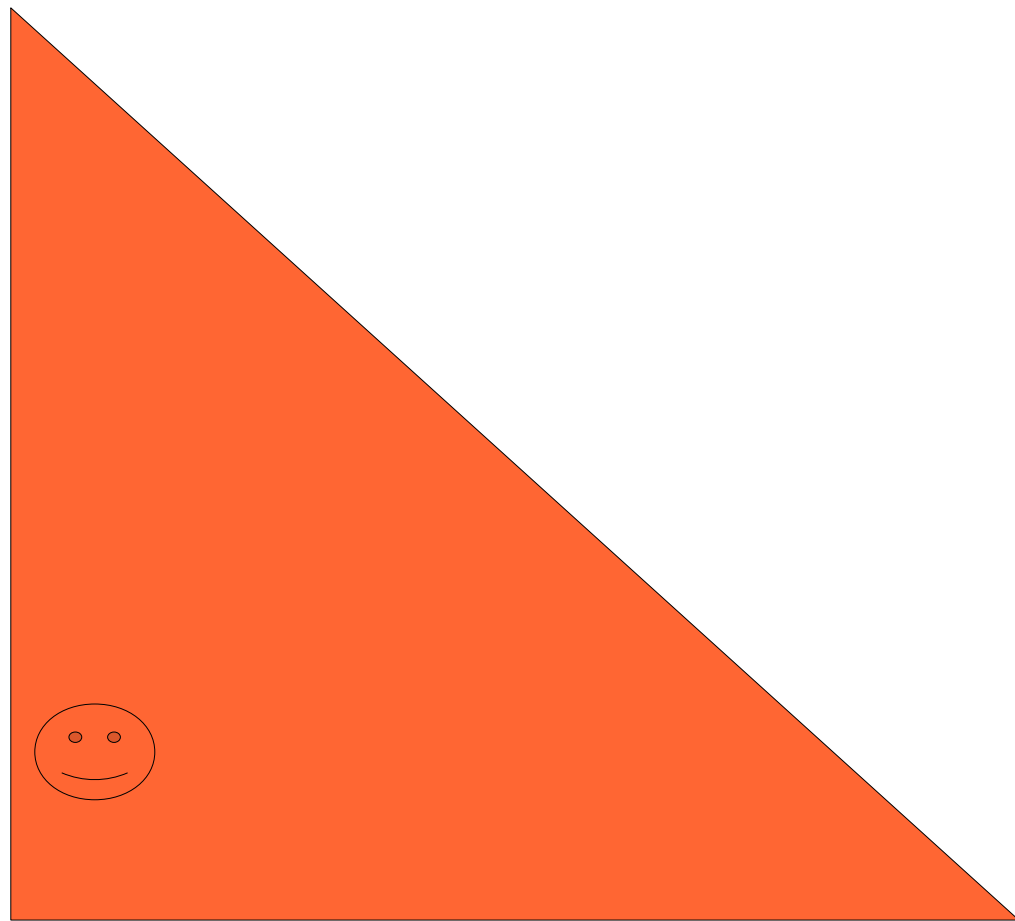

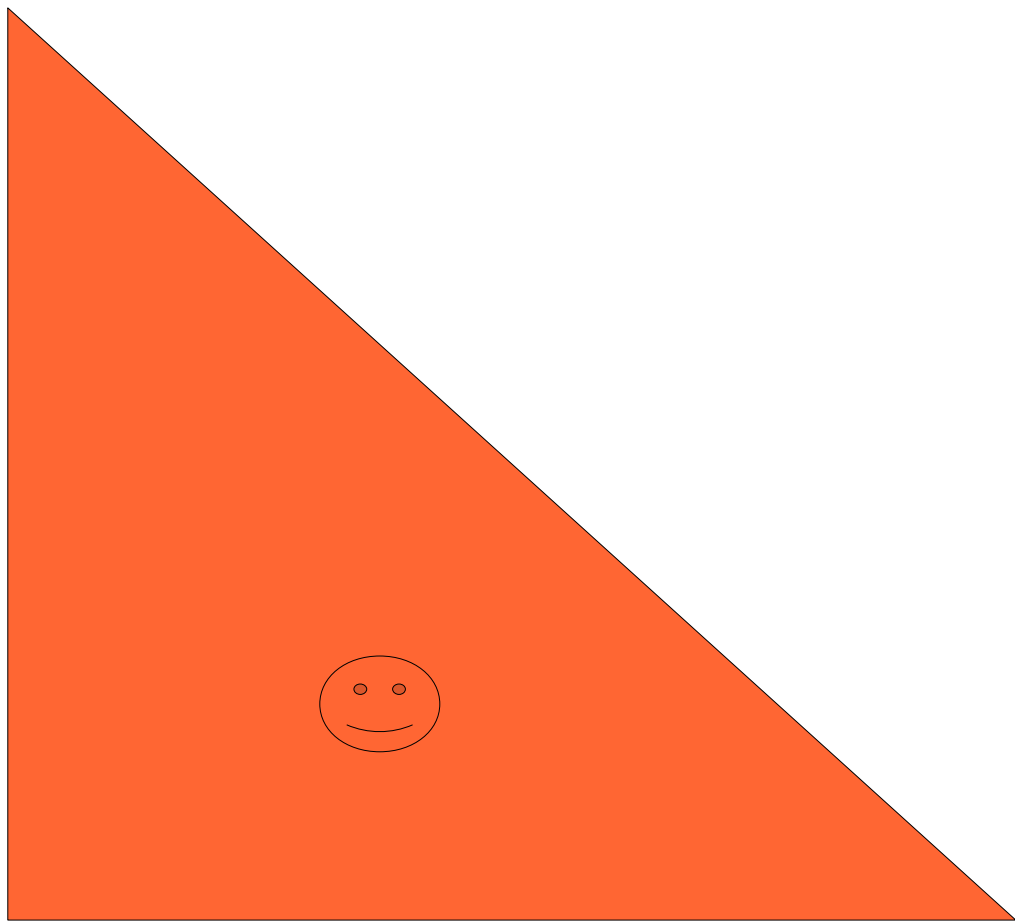

Dica: Seja paciente, repita o processo. Lembre-se: a ideia é treinar a associação.
